‘Managing the Non-Vital Tooth’

Tuesday 24th November

The Mount Somerset Hotel, Taunton

Course Organiser

Lucy Silk

Lecturers

Paul HR Wilson & Jonathan Cowie

Aim: This interactive course will enable an evidence-based approach to the predictable management of the non-vital tooth, from diagnosis and beyond. The course will also have a hands-on element with participants using the Wave One Gold System.

Objectives: At the end of the course, participants will have:

1. An evidence-based knowledge of endodontics and restoration of the non-vital tooth;
2. Be able to treatment plan and problem-solve issues in the management of the non-vital tooth;
3. Use available evidence in the selection of dental materials for treating the non-vital tooth.
4. Understand the Wave One Gold concept and be able to use the files.
