**Course Aims and Objectives:**

1) To increase awareness of oral malignancy and pre-malignancy facilitating the early diagnosis of oral cancer:

- To illustrate the latest oral cancer demographics.
- To elucidate the aetiology and risk factors for oral cancer.
- To remind you of the nature of oral pre-malignancy and malignancy.
- To help differentiate the trivial from the sinister.

- To provide guidance on referral.
- 2) To aid recognition of the oral manifestations of systemic disease.
- 3) To aid management of the patient with xerostomia.
- 4) To identify those patients best referred for a specialist opinion and to provide guidance on referral.

**Lecturer**

Mr John Hamburger is part time Senior Clinical Lecturer and Honorary Consultant in Oral Medicine and is the service and academic lead in this speciality at Birmingham Dental Hospital.

He has published around 50 peer reviewed papers, co-authored 2 books and contributed to book chapters in the field of Sjogrens Syndrome and Lichen Planus.
