1500 –1530 Interactive Case Discussion

1530- 1600 Interactive Case Discussion

1600     Conclusions & Close

**Aim:** This interactive debate will challenge participants to form a deeper understanding of which care is best: endodontic treatment or dental implants?

**Objectives:** At the end of the course, participants will have:

1. An evidence-based knowledge of endodontic and dental implant outcomes;
2. Be able to inform their daily clinical decision making through critical appraisal;
3. Challenge preconceived ideas about 'gold-standard' patient care over the long-term.
