

Mastering the Art of Anterior & Posterior

Composites

Date and venue:

Wednesday 2nd December 2015

Clinical Laboratory skills

Chapter House, Bristol Dental Hospital,
Bristol, BS1 2LY

Course Organiser:

Vassia Karpeta

Course Lecturer:

Mrs Alaa Daud, Clinical Lecturer in Restorative
Dentistry, University of Bristol & Hospital;
Mr Andrew Chanrapal BDS MFGDP(UK) DPDS(Bris)
MClinDent (Pros)

The course has been kindly supported by Heraeus Kulzer

Programme

09:30 - 09:15	Registration (Coffeeshop, Chapter House BDH)
09:30 – 10:45	Anterior Composite Restorations Theory and Planning
10:45 – 11:00	Coffee
11:00 – 12:30	Posterior Composite Restorations – Theory of layering, anatomy and occlusion
13:00 – 13:30	Lunch
13:30 – 14:15	Anterior Class IV Practical
14:15- 14:45	Anterior Polishing and Finishing
14:45 – 15:00	Tea/Coffee

15:00 – 16:15 Posterior Class II

16:30 – 17:00 Conclusion

Aims and Objectives;

- An update on composite resins.
- To gain an understanding of composite resin layering in the Anterior and Posterior Dentition
- An appreciation of primary, secondary & tertiary anatomy
- The importance of a strict bonding protocol
- Anatomical layering as a tool to simple yet effective restorations
- Implementation of the above to produce simple yet superior restorations
- Avoidance of failure and improvements on longevity
