16.00	Close

Aim:

Dental Postgraduate Department

To enable course participants to develop the skills necessary to become Educational Support Supervisors

Objectives:

- Identify training needs
- Appreciate the importance of reflective learning
- Understand the principles of successful tutorials
- Give useful feedback
- Recognise and manage underperformance

Learning Outcomes:

This course will enable more dentists to consider becoming Educational Support Supervisors, so will indirectly provide opportunities for dentists with conditional performer numbers to work in the South West.
