Dental Postgraduate Department

Health Education South West

Aims To develop knowledge and gain a better understanding of health and safety in the workplace

Objectives By the end of the course participants should be able to

Understand the principles of occupational health and safety and apply this knowledge in the workplace

State and understand the scope of legal and moral responsibilities whilst at work

Understand the principles of accident prevention and the need to report accidents including near misses

Understand the importance of risk assessment and the practical actions to improve health and safety

Be aware of the hazards and risks associated with the workplace, work equipment, work activities, fire, display screen equipment and hazardous substances

Determine reasonable methods to control risks associated with all aspects of the working environment

Learning outcomes

On successful completion of the continuous assessment throughout the day participants will receive the Chartered institute of Environmental Health level 2 Award - Health & Safety in the workplace.

All of the above are considered in terms of the dental environment.

The above aims and objectives are met through the completion of an assessment exercise consisting of 30 multiple-choice questions
