

How to take good intra-oral radiographs (SW17-01-21-1)

9.15am-12.30pm, Saturday, 21st January 2017
Dental Radiography Room, Level 7 Dental Outpatients,
Derriford Hospital, Derriford Road, Plymouth PL6 8DH

Course Organiser:
Roger Robinson

Course Lecturer:
Tim Huckstep, Lead Radiographer
Dental & Maxillofacial Dept, Derriford Hospital

Programme

09.15 - 09.30	Registration with refreshments
09.30 - 11.00	How to take good intra-oral radiographs
11.00 - 12.30	How to take good OPTs

Aim

To give participants an opportunity to revise their intra-oral radiography and OPT skills

Objectives

By the end of the session, delegates will:

1. Have revised the techniques for the use of equipment used to take intra-oral radiographs using the paralleling technique.
2. Have revised the positioning of the patient to take high quality OPTs
3. Have had an opportunity to gain insight on the equipment they use in their practice

Learning Outcome

That delegates should be able to take high quality intra-oral radiographs and OPTs at the first attempt thus reducing the ionising radiation dose to their patients
