

Tips, Tricks and Pitfalls in Removable Prosthodontics

Date

Thursday 31st May 2018

Course Organiser:

Keith George

Course Lecturers:

Mr Michael Gregory

Programme

14.00-14.15	Tea and Registration.
14.15-16.45	Workshop and denture designing.
16.45-17.00	Questions and feedback.

Course Aims.

- 1- To understand the fundamentals of denture design and where it can all go wrong.
- 2- To be able to successfully survey models and realise its importance in denture design.
- 3- Realise alternative techniques available for more difficult cases.

Course Objectives.

By the end of the course, participants will;

- 1- Be able to select the best technique for different cases.
- 2- Be able to achieve better success in partial denture construction.
- 3- Be able to problem solve in removable denture construction.

Learning Outcomes.

- 1- To be more confident in the design process for removable partial denture construction and realise what has gone wrong if all not well at the end.
