

The Posterior Composite Revolution (Success. Profit. Everyday.)

Lecturer:

Dr Chris McConnell BSc, BDS, DPDS
Practice Principal

Date and Venue:

Monday 4 December 2017
The Alverton Hotel, Truro

Course Organiser

Carrie Bradburn, Dental Postgraduate Tutor

PROGRAMME

09.00 – 09.30	Tea/Coffee/Registration
09.30 – 11.00	Introduction Theory
11.00 – 11.15	Tea/Coffee
11.15 – 12.30	Hands on – essential composite techniques
12.30 – 13.30	Lunch
13.30 – 15.00	Theory bulk fill and hands on
15.00 – 15.15	Tea/Coffee
15.15 – 17.00	Bulk fill hands on continued Summary
17.00	Close

Aims: The course aims to provide participants with the knowledge and understanding to confidently use the latest composite materials for optimal stress free results using innovative advanced techniques that can be utilised by every Clinician, everyday with minimal outlay

Objectives: By the end of the course participants will:-

1. Recognise the classification, composition and performance factors of composite
2. Gain knowledge on light curing and how it can help or hinder you
3. Understand the types of bonding systems used in conjunction with composite technology
4. Gain practical experience in the techniques of freehand composite placements to achieve aesthetic restorations in the molar and pre-molar region and understand how a limited selection of materials can be used for most cases

Learning Outcomes: The participants will have the knowledge and understanding to confidently use the latest composite materials for optimal stress free results using innovative advanced techniques that can be utilised by every Clinician, everyday with minimal outlay
