13.00	Lunch
14.00	Making, fitting, adjusting and maintaining a Michigan splint
15.00	Tea
15.15	Occlusion – what to look for, how to check it, how to fix it.
16.15	Close

**Aim:** The aim of this course is to teach the important features of occlusion and how different splints can be used for a variety of common problems seen in general practice.

**Objectives:** By the end of the course delegates should;

1. understand when and how to intervene in a safe and ethical way for occlusal related problems
2. appreciate when to use each type of occlusal splint
3. be able to take the clinical records for each splint including impressions, jaw registrations and facebow records where necessary
4. be able to fit and adjust each splint

**Learning outcomes:**

By the end of the course delegates should;

Have a greater understanding of when and how to use occlusal splints.
