Course Aim:

To enable delegates to understand the basic principles of risk assessment so they can contribute to the process within their own working environment.

Course Objectives:

1. Appreciation of the main causes of accidents/ill health and their implications for people at work & how to risk assess links to accident prevention.
2. Application of the legal requirements for risk assessment as stated under the Management of Health & Safety at Work Regulations.
3. Demonstrate the principles of risk assessment by using a range of methods and record the outcomes.
