

**What your local orthodontic department can do for your  
patients  
(SW18-02-15-1)**

Date and venue:

18.00 – 21.30pm Thursday 15<sup>th</sup> February 2018  
Imperial Hotel Parkhill Rd, Torquay TQ1 2DG

Course Organiser: Roger Robinson

Course Lecturers: **Ingrid Cozma & Roger Robinson**  
Consultant Orthodontists, Torbay Hospital

**PROGRAMME**

1800-1830 Registration with Buffet Supper

1830-1835 Introduction

1835-1930 Orthodontics in the 21st century

1930-2000 IOTN & IFOTN – what's the difference?

2000-2100 Which patients would you refer and to whom?

2100-2130 Questions/discussion

*This program it is quite flexible and will more than likely change on the day, depending on questions and interaction.*

**Aim**

To make GDPs aware of what treatments within the hospital service are available to their patients

**Objectives**

By the end of the day delegates will:

- Understand the scope of uni- and multi-disciplinary treatments available to their patients
- Know to whom they should refer their patients
- Be familiar with the Orthodontic treatment need indices

**Learning Outcomes:**

- Understanding the scope of treatment available to patients
- Allowing more efficient referral of patients to the most appropriate orthodontic service
