

**Interpreting Intra-Oral and Extra-Oral Radiographs.**

Date and venue:

Thursday 21<sup>st</sup> February 2019  
Health Education England  
Deanery House  
Bristol

Course Organiser:

Keith George/ Jackie Gazzard.

Course Lecturer:

Linda Parrott BDS MSc MA

**Programme**

13.30-13.45	Tea and Registration.
13.45-14.30	Normal Radiographic anatomy.
14.30-15.15	Diagnosis of Dental Pathology from Intra-Oral Radiographs with audit
15.15- 15.30	Tea
15.30-16.15	Diagnosis of Dental Pathology from Extra-Oral Radiographs with audit
16.15-16.30	Questions and feedback.

### **Aims.**

The course will enable participants to confidently report on the radiographs they take in practice.

### **Objectives.**

- 1- Be familiar with normal radiographic anatomy seen on intra-oral radiographs and dental panoramic radiographs.
- 2- To be able to diagnose dental pathology on intra-oral and dental panoramic radiographs.
- 3- To have a working knowledge of the FGDP (UK) selection criteria for dental radiography.
- 4- To be able to carry out a relevant and successful audit of radiographs taken.

### **Outcomes.**

The course links to GDC learning outcomes in patient care;

- Foundations of practice 1.1.1/1.1.3/1.
- Comprehensive patient assessment 1.2.4
- Diagnosis 1.4.2
- Treatment planning 1.5.1
