

Dental Postgraduate Department

Diagnosis and management of TMJ disorders
(SW-19-11-07-01)

Thursday 7th November 2019

Engineers' House, Clifton, Bristol

Course Organiser
Samantha Braddock

Course Lecturer
Rob Jagger

Programme

14.00 - 15.00	Session1: TMD Diagnosis
15.00 - 15.30	Session 2: Examination Hands on
15.30- 15.45	Coffee
15.45 -17.00	Session 3: Successful treatment. An evidence-based approach

Dental Postgraduate Department

Aim

This session provides information to improve participants' ability to diagnose and manage TMD.

Objectives:

By the end of this course participants should:

- Increase knowledge of the classification and description of temporomandibular disorders
- Have reviewed patient assessment including hands-on examination
- Understand the evidence-based approach to management of TMDs in dental practice.

Learning outcomes:

At the end of the course participants will:

- Be familiar with the broad range of Temporomandibular Disorders (TMDs)
- Understand how TMDs are diagnosed
- Be aware of the treatment options for TMDs and their evidence base
- Be able to initiate a management plan for TMDs and /or refer when appropriate

GDC development outcome: C

Maintenance and development of knowledge and skill within your field of practice

The eGDC activity log suggests reflecting on the following during and after this course:

- What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
- Did you identify any changes/updates needed in your daily work, and if so, what? How did you make these changes?
- If you didn't identify changes needed, what did the activity confirm for you, that you may already know or be doing?
- What was the benefit to your work and/or your patients in carrying out this activity?
