

How to take good intra-oral radiographs and OPT'S.

Date:

Saturday 18 January 2020

Dental Radiography Room
Level 7 Dental Specialities
Derriford Hospital (main building)
Plymouth PL6 8DH

Course Organiser:

Keith George.

Course Lecturer:

Tim Huckstep- Dental Radiographer

Programme

09.00-09.30	Registration and refreshments
09.30-11.00	Session 1 – How to take good intra-oral radiographs.
11.00-12.00	Session 2- How to take good OPT's
12.00-12.30	Questions and feedback.

Aims-

To give participants an opportunity to revise their intra-oral radiography and OPT skills.

Objectives-

By the end of the session, delegates will :

- 1- Have revised the techniques for the use of equipment used to take intra-oral radiographs using the paralleling technique.
- 2- Have revised the positioning of the patient to take high quality OPT's.
- 3- Have had an opportunity to gain insight on the equipment they use in their practice.

Learning Outcomes-

Those delegates should be able to take high quality intra-oral radiographs and OPT's at the first attempt thus reducing the ionising radiation dose to their patients.
