

**Dental Postgraduate Department**

**The Management of Tooth Surface Loss  
What's it all about**

Date and venue:

26 May 2023

Double Tree by Hilton Bristol North

Course Organiser:

Keith George

Course Lecturers:

Rahat Ali

Stephanie Hackett

**Programme**

0900- 09.15	Registration
09.15- -09.20	Introduction {RA}
09.20-11.00	Session 1
11.00 -11.15	Coffee
11.15-12.45	Session 2:
13.00-14.00	Lunch
14.00-15.00	Session 3:
15.00-15.30	Coffee
15.30-16.15	Session 4:

**Aim**

- To comprehensively discuss the aetiology , restorative management and maintenance of a patient with non-carious tooth surface loss with particular emphasis on the use of composite resin.
- To discuss the different types of composite available on the market to manage tooth wear.
- To discuss current developments of LED light curing units.

## **Dental Postgraduate Department**

### Objectives:

- Have a clear understanding of the aetiology of non-carious tooth surface loss
- Appreciate the different options available to manage tooth surface loss.
- Be able to assess and work up a patient with tooth surface loss.
- Understand the limitations , longevity and maintenance issues.
- Understand the current developments of LED curing units
- Understand how to clinically achieve optimum composite curing,

### Learning outcomes:

- Be able to diagnose the cause of tooth surface loss
- Be able to effectively treat tooth surface loss

### GDC development outcome:

C

The eGDC activity log suggests reflecting on the following during and after this course:

- What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
- Did you identify any changes/updates needed in your daily work, and if so, what? How did you make these changes?
- If you didn't identify changes needed, what did the activity confirm for you, that you may already know or be doing?
- What was the benefit to your work and/or your patients in carrying out this activity?
