Aim

To revise the principles of Minor Oral Surgery (MOS) and increase confidence in approaching MOS in practice.

Objectives

- Understand how to assess a patient for MOS
- Be able to identify commonly used instruments and their use

Dental Postgraduate Department

- Understand the principles of flap design
- Be able to effectively suture
- Be confident in dealing with common complications
- Identify when to refer

GDC development outcomes : C

The eGDC activity log suggests reflecting on the following during and after this course:

- What did you learn (or confirm) from the activity that was helpful or relevant to you daily work and patients?
- Did you identify any changes/updates needed in your daily work, and if so, what?
- If you didn't identify changes needed, what did the activity confirm for you, that you may already know or be doing?
- What was the benefit to your work and/or your patients in carrying out this activity?
