Wendy Thompson
Andrew House,
Tom Westcott & Dylan
Rakhra

Aim

To establish a group of research interested dental professionals

Objectives:

To give dental registrants:

1. an understanding of opportunities available to them for research training
2. awareness of clinical research trials
3. an overview the experience of primary care dentists involved in research
4. the career benefits of engagement in research

Learning Outcome

Awareness of research opportunities available for dental teams based outside of teaching hospitals

GDC development outcome:

B&C

Dental Postgraduate Department

The eGDC activity log suggests reflecting on the following during and after this course:

- What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
- Did you identify any changes/updates needed in your daily work, and if so, what? How did you make these changes?
- If you didn't identify changes needed, what did the activity confirm for you, that you may already know or be doing?
- What was the benefit to your work and/or your patients in carrying out this activity?
