Dental Postgraduate Department

Aim

To improve confidence in managing dental extractions in primary care

Objectives

1. Discuss the challenges encountered with dental extractions in primary care
2. Identify instrumentation and techniques for extracting intact teeth
3. Describe methods of extracting retained roots
4. Explain the principles of sectioning teeth for extraction
5. Recall the principles for surgical extraction of teeth

GDC development outcomes : C

The eGDC activity log suggests reflecting on the following during and after this course:

- What did you learn (or confirm) from the activity that was helpful or relevant to you daily work and patients?
- Did you identify any changes/updates needed in your daily work, and if so, what?
- If you didn't identify changes needed, what did the activity confirm for you, that you may already know or be doing?
- What was the benefit to your work and/or your patients in carrying out this activity?
