

## Dental Postgraduate Department

Preformed metal crowns for primary molars AND primary tooth extractions- theory and practical application

**(SW 24 20 11 01)**

Date and venue:

11/10/2024

C206 SDLE, Portland Square, University Of Plymouth, Drake Circus, Plymouth PL4 8AA

Course Organiser:

Sam Braddock

Course Lecturer:

Joanne Elmes

### **Programme**

0900- 09.30	Registration: Meet in the Entrance at Portland Square
09.30 -10.45	Session 1: Stainless steel crown part 1
10.45 -11.00	Coffee
11.00-12.00	Session 2: Stainless steel crown part 2
12.00-13.00	Lunch
13.00-14.15	Session 3: Primary tooth extractions part 1
14.15-14.30	Coffee
14.30-16.00	Session 4: Primary tooth extractions part 1

### **Aim**

The aim of this course is to improve understanding of the:

1. scientific basis behind preformed metal crowns and to provide an opportunity to practice preformed metal crown placement on model

AND

2. theoretical knowledge and practical application to extraction techniques for the primary dentition on models

## Dental Postgraduate Department

### Learning Objectives:

By the end of this course:

Delegates should have improved knowledge regarding case selection for preformed metal crowns, including tooth factors and patient factors.

Delegates should have improved confidence with the practical technique for placement of preformed metal crowns.

Delegates should have improved knowledge regarding case selection for primary tooth extractions.

Delegates should have improved confidence with the practical application for primary tooth extractions.

Overall this course aims to help delegates to deliver high quality care for their paediatric patient

### Learning objectives:

By the end of this course:

Delegates should have improved knowledge regarding case selection for preformed metal crowns, including tooth factors and patient factors.

Delegates should have improved confidence with the practical technique for placement of preformed metal crowns.

### GDC development outcome:

C

The eGDC activity log suggests reflecting on the following during and after this course:

- What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
- Did you identify any changes/updates needed in your daily work, and if so, what? How did you make these changes?
- If you didn't identify changes needed, what did the activity confirm for you, that you may already know or be doing?
- What was the benefit to your work and/or your patients in carrying out this activity?
