Excellence in Anterior Composites (SW10-02-12-2)

Lecturers:
Salim Miskry BDS

Date and venue:
Friday 12th February 2010
Prince of Wales Hotel, Gloucestershire

Course Organiser:
Rob Salvin, Postgraduate Tutor

Agenda

9:00 - 09.30	Registration and Coffee
9:30 - 12:30	Lecture and Practical. Hands on experience using models and phantom heads
12:30 - 1:30	Lunch
1:30 - 4.45	Lecture and Practical

Lectures will cover the use of layered composite and minimally destructive techniques to improve anterior aesthetics. Understanding colour, fluorescence and shape as well as gingival management assessment and communication with the patient.

Hands on experience of Class IV restorations, diastema closure, composite veneers with lots of tips and tricks to take back to the practice.

You will be given a top of the range composite placement instrument to take home and most of the materials for the day will be provided, but will you please bring with you:-

- AN UPPER STUDY MODEL
- YOUR PREFERRED COMPOSITE PLACEMENT INSTRUMENTS
- LONG TAPERED FLAME SHAPED BUR
- COMPOSITE FINISHING BURS
- SOFTLEX DISCS AND MANDREL
- CLEAR PLASTIC MATRIX STRIP
- IMPRESSION PUTTY
