Programme:

0900 Registration
0930 Aetiology - contemporary thoughts
1030 Screening for periodontal diseases
1100 Coffee
1115 Assessment and diagnosis
1300 Lunch
1400 Treatment Planning
1430 Self Care
1500 Tea
1515 Modern non-surgical disease management
1630 Close

Aims and Objectives:

1. To understand the principal aetiological and risk factors involved in the development of periodontal diseases.
2. To gain a comprehensive appreciation of the multifactorial nature of disease causation.
3. To appreciate the role of self care in primary and secondary prevention.
4. To update knowledge on modern non-surgical treatment modalities.

The course should enable participants to:

1. Explain periodontal diseases to patients accurately and effectively.
2. Understand the multiple risk factors involved in periodontitis.
3. Advise patients about the crucial role of self care.
4. To consider alternative non-surgical treatment methods.
