16.30 Course Ends

Aim: To review the principles of MOS and to provide hands on training in flap design, bone removal, use of elevators, and suturing

Objectives: By the end of the day delegates will have:

1. Reviewed the principles of MOS
2. Practiced handling and use of suture materials
3. Practiced raising appropriate flaps
4. Practiced bone removal and use of elevators

Outcome: Delegates should feel more confident in carrying out minor oral surgical procedures in their own practice
