

Trainees Requiring Additional Support (Supporting Doctors in Difficulty)

Summary of workshop

This workshop aims to boost confidence in providing support to trainees who require extra help due to challenges or concerns regarding their performance. Through a combination of interactive discussions, case studies, and role-playing exercises, participants will gain practical experience in providing support to trainees in a variety of scenarios.

What will be covered?

- How to recognise a postgraduate doctor who needs specific support
- What underlying factors may be contributing to problems, and how to identify these
- Clarification of the role and responsibilities of an Educational Supervisor, the postgraduate school, and the Hospital in supporting trainees and responding to concerns effectively
- Ways of giving constructive feedback on suboptimal performance
- How to formulate SMART learning objectives for a postgraduate doctor who requires additional support
- Strategies for support and remediation
- Tips for documenting discussions with postgraduate doctors to maintain a fair and accurate record

Who is it for?

Educational and Clinical Supervisors, Appraisers, Trainers, Tutors.

Meet the team

"I attended your educational supervisor training and I wanted to thank you for making it such a useful and enjoyable session despite having to do it virtually. I have attended your previous training session three years ago face to face and the part time training session virtually. You are an inspirational teacher and I have never left any of your teaching sessions without learning something useful and using it in daily practice."
