

## Teaching, Presentation Skills & Optimising Learning in the Virtual Environment

### Summary of workshop

This workshop will provide a comprehensive overview of education theory, learning needs analysis, and different teaching strategies and modalities. Through this workshop, participants will learn how to deliver engaging and interactive virtual workshops on popular platforms like Zoom and Teams.

### What will be covered?

- Design and planning of learning activities
- Plan and provide effective education and training activities
- Describe how the principles of learning and teaching are incorporated into educational developments
- Demonstrate awareness of different ways of learning and teaching
- Show how the needs of learners are considered
- Demonstrate awareness of a range of learning methods, experiences, and resources and how they may be used effectively

Participants will gain confidence in navigating the advanced features of these platforms, including screen sharing, chat, voting polls, breakout rooms, whiteboards, and streaming video cases. With these skills in their toolkit, they will be able to deliver impactful virtual workshops that keep your learners engaged and motivated.

### Who is it for?

Trainees, Allied Health Care Professionals, Trainers, Supervisors, SAS, Education leads, Tutor/TPD's, Senior Faculty, Appraisers.

[Meet the team](#)

*"I attended your educational supervisor training and I wanted to thank you for making it such a useful and enjoyable session despite having to do it virtually. I have attended your previous training session three years ago face to face and the part time training session virtually. You are an inspirational teacher and I have never left any of your teaching sessions without learning something useful and using it in daily practice."*
