

Supporting AKT Candidates

Information Mastery

Friday, 10th May 2019—Thorpe Park Hotel, Leeds

09:00 - 16:00

Dr's Neal Maskrey & Nick Price

- Help registrars with AKT prep
- Increase your confidence in teaching EBM
- Cope better with information overload

By the end of the day, trainers will be more familiar with the AKT content, have a plan for supporting candidates' preparation and feel more confident about helping candidates with what is for many, the most challenging area in the AKT topics—evidence-based medicine.

Trainers will also explore the concept of Information Mastery and consider how they can use this to facilitate the development of their trainees.

Pre- Course Preparation Can be Found Here:
