Compassion

‘I’ve learned that people will forget what you said, people will forget what you did, but people will not forget how you made them feel.’ Maya Angelou

Aims

What is compassion?

Why is compassionate care so important for both doctors and patients?

How can the creative arts be used to improve our understanding of compassionate care?

Objectives

We will use creative arts resources: stories, pictures, poems, music and film to help explore this topic and discover how the creative arts can be used to facilitate individual or small group learning.
