## Supported Return To Training Conference

For Supervisors, TPDs, Medical Staffing & Education

*Would you feel confident to help a Trainee plan for a period of time away from training and support them on their return?*

*Are you aware of the issues reported by Trainees?*

*Would you like to know more about the resources available to support you in guiding a Trainee through this process?*

This highly engaging and practical day will give you a clear understanding of what the Supported Return to Training (SuppoRTT) Programme can offer Trainees, while considering your needs and how workplace culture may impact upon this process. There will be an opportunity to hear the experiences of Trainees, participate in interactive workshops and consider the importance of both Supervisor and Trainee resilience.
